The url can be anything !

In the NEW Internet, you get to pick your OWN name that you use FOREVER, EVERYWHERE!
What name would you chose?
your name must be exactly 12 characters, lower case a-z and 1-5.
Choose wisely my future friend!

Good Luck!

Sorry, your name did not follow the rules.

You are not ready for the New Internet

Share message: [creator](#) couldn't find my name for the New Internet! ;)

Are You READY?

http://...Any url that agrees to #FairTradeEOS

[creator](#) is obligated in real life and EOS life to a real contract.
Since we believe in securing Life, Liberty and Property in the [EOS: Enlightened Open System](#),
[creator](#) will write the following contract to EOS blockchain for anyone to see that we both agree:

...
...ricardian contract details here...

[Agree](#)

As you noticed in the Contract, you agreed to the following Quests:

1. <account name> agrees to learn about EOS [here](#) or [here](#). [more info on this quest](#)
☐ I agree to learn more about EOS
2. <account name> agrees to install a wallet to secure your keys for EOS from [here](#) or [here](#)
[I agree](#) [More Info](#) ☐ I agree to install a wallet for safe keys

If you agree to all these terms the following will happen for real:

- [creator](#) will create <account name> for you worth about US\$10 and hold the keys until you complete the two quests, so you will only be able to receive but not send tokens. Upon completion of the quests, [creator](#) will allow you to create your own secure keys and transfer the account to you.
- [creator](#) will give you X <creator> tokens
- [creator](#) will give you Y [creator](#) token(s) for everyone you refer with a link provided
- All these companies agree to give you free tokens!

...list of all our #FreeTradeEOS partners providing tokens to new accounts.

My real self and <account name.> agrees, Create Account

[More info before I agree](#)

Didn't read contract

Danger! In EOS you should read all contracts.

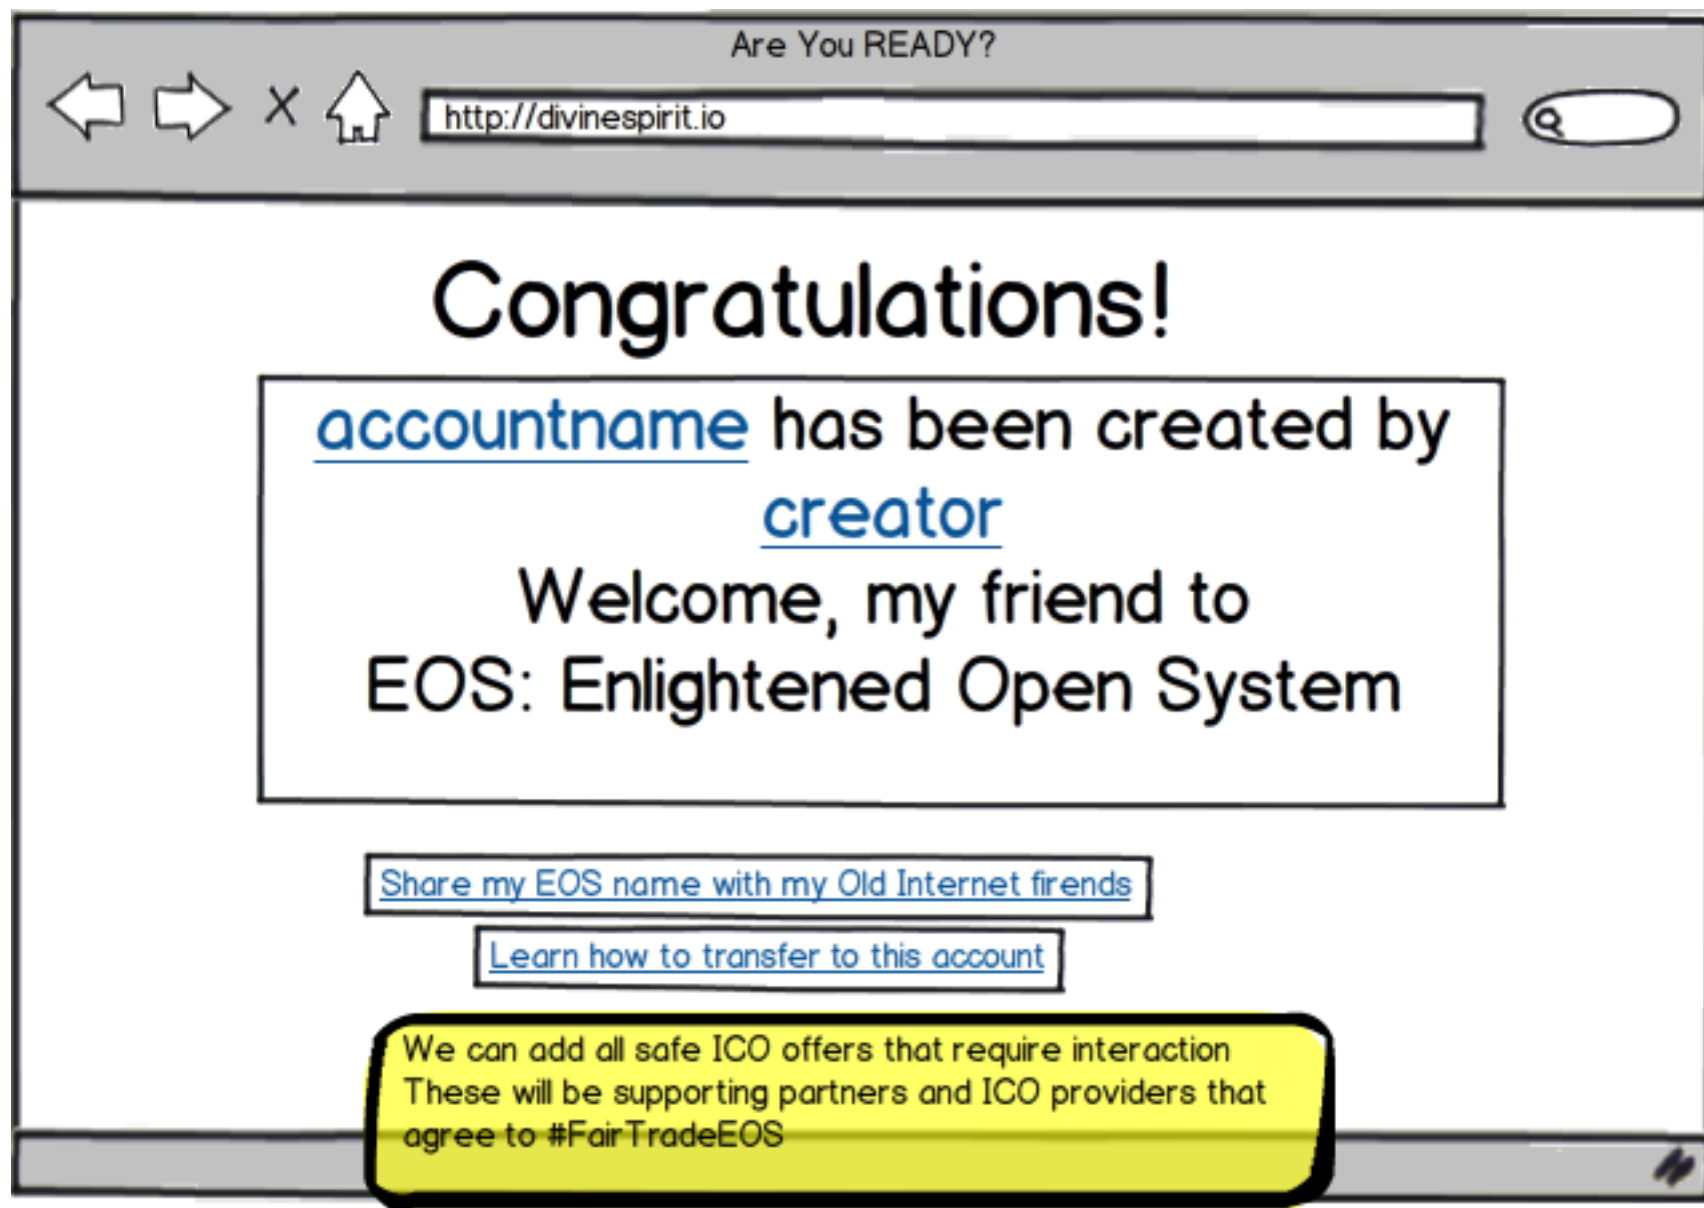

Next time read all new contracts.
